

# USER MANUAL

## HOME PAGE:

The images below show the pages' displayed to our viewer (client or freelancer) as they visit our link.

There are two images, the first image appears on the landing page when the user logs in as a freelancer to post their gigs whereas the other appears when logged as a client to post projects or to hire freelancers.

## **Brief Description :**

Here we have described briefly what makes us stand out of the crowd in competition to other similar sites. In the next cards we brushed about the unique features of our site.

**Why Choose Us?**  
Indian Freelancers work on websites like freelancer, Fiverr. Those who are working on it for a long time easily get projects but the recruits who want to do freelancing to increase their passive income doesn't get projects, so they switch to unofficial platforms like FB & WhatsApp groups, and in many cases after completing the project, clients stop responding to them & they remain unpaid for their work. So we aim to provide them an official & trusted platform to work & easily get clients. Not getting projects and being paid for the work are the major problems.

**01**  
**Withdrawl System**  
Payment is done in dollars so Indians have to use 3rd property (NETeller, Skrill, PayPal) which takes their own commissions. We'll give options to directly withdraw from the bank usingUPI, Paytm.

**02**  
**We don't charge for premium**  
Many sites require premium membership after applying for a certain no. of projects in 1 month. And some sites take high commissions around 20% at the time of withdrawal we'll not restrict freelancers to apply on limited no. of projects.

**03**  
**Long term and short term**  
Availability of long term & Short term option. With the help of this option, anyone can hire people for a longer duration doing the same kind of task again and again based on the option marked by the freelancer.

## **Testimonials :**

In order to attain our user's trust, we've added this testimonials section which helps them to examine and come to an opinion, just like how people trust comments more than product description while online shopping.

HEAR FROM OUR CLIENTS

### TESTIMONIALS

 **Saul Goodman**  
Ceo & Founder  
"I got some real amazing talent. The students are really skilled." Really nice

 **Sara Wilsson**

## **SIGN-UP(Dynamic webpage):**

Before starting to work the user needs to sign up to the website. In case they've already signed up they can directly sign in. Clicking on the “get started” button redirects the user to the signup page where the user needs to enter their username, email, password and confirm password (must be the same as confirm password) and referral code (optional)

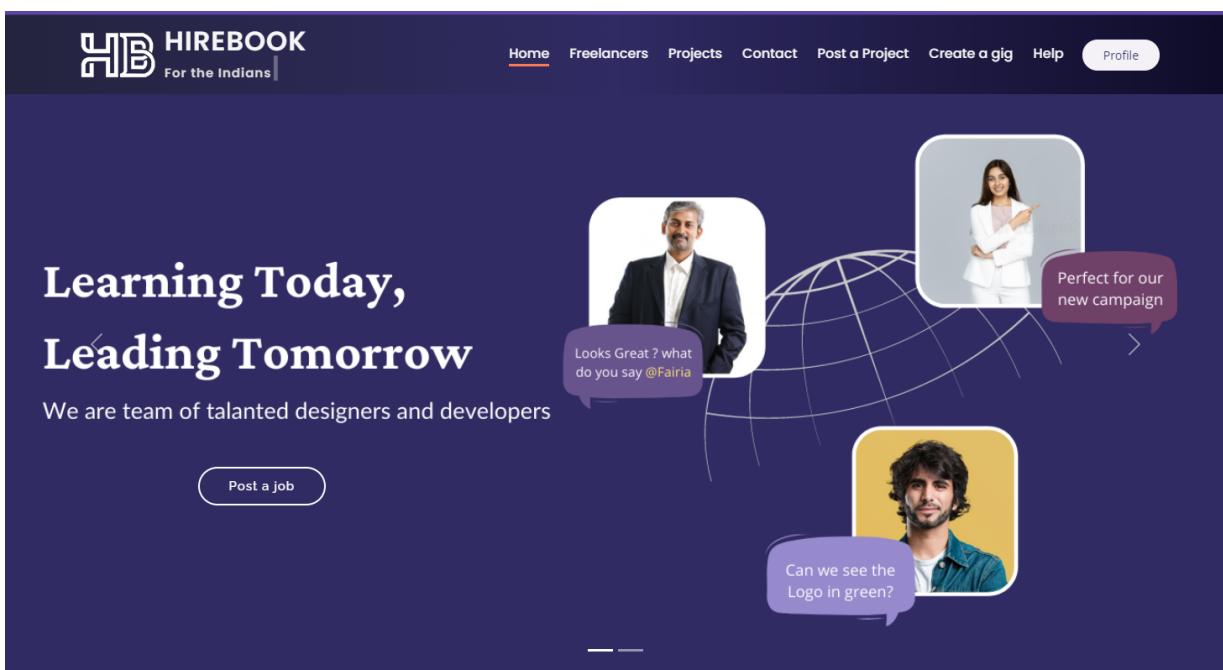

## **SIGN-IN(Dynamic Web page):**

If you are an old user you can directly sign in to your account using your user name and password and you'll be redirected to the Homepage after signing in.

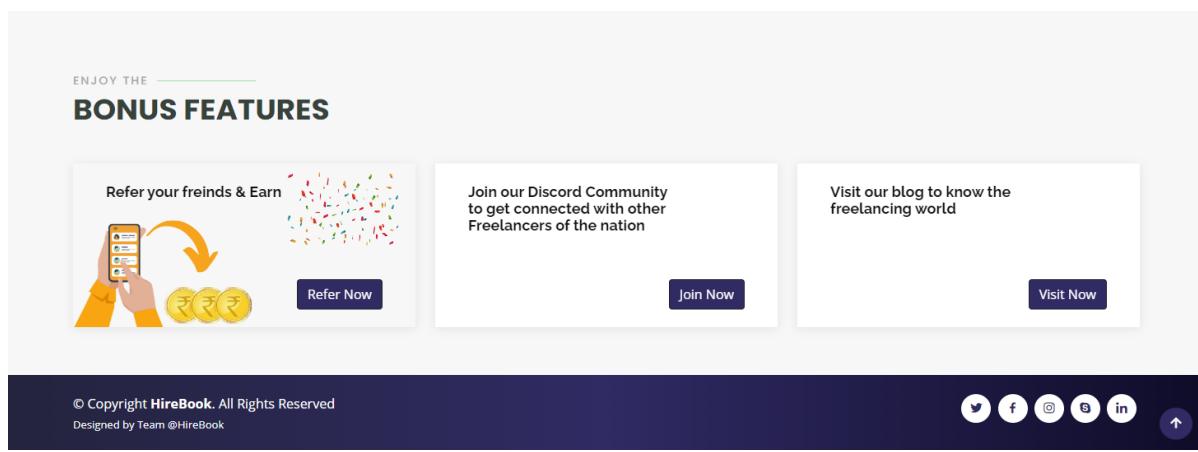

## Homepage(After signing in successfully-Static Page):

The structure will be the same as the landing page but an additional section containing BONUS Features, which were created especially to attract more users to our site, was added.

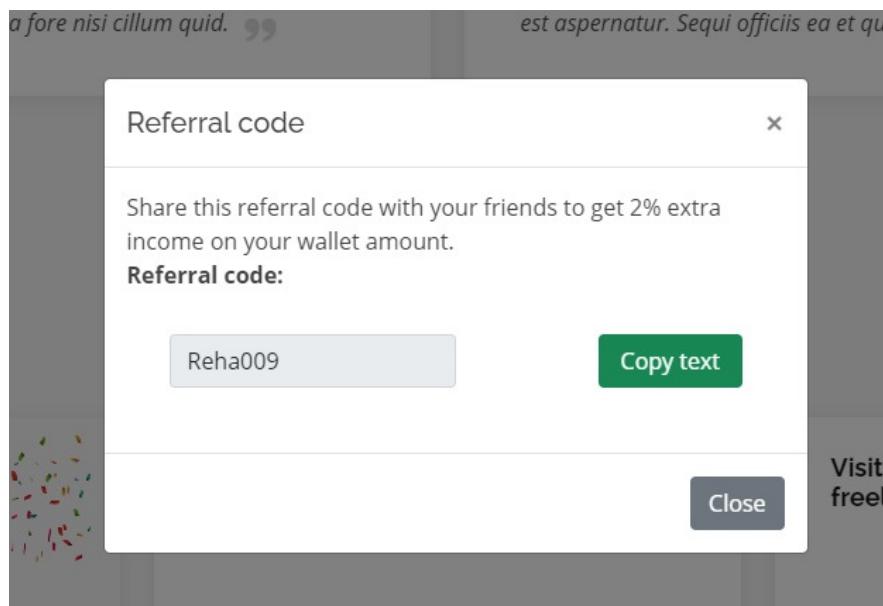

**Here is the bonus features section which contains referral code,**

## discord community, and blog.

### 1. Referral code (Generated Dynamically):

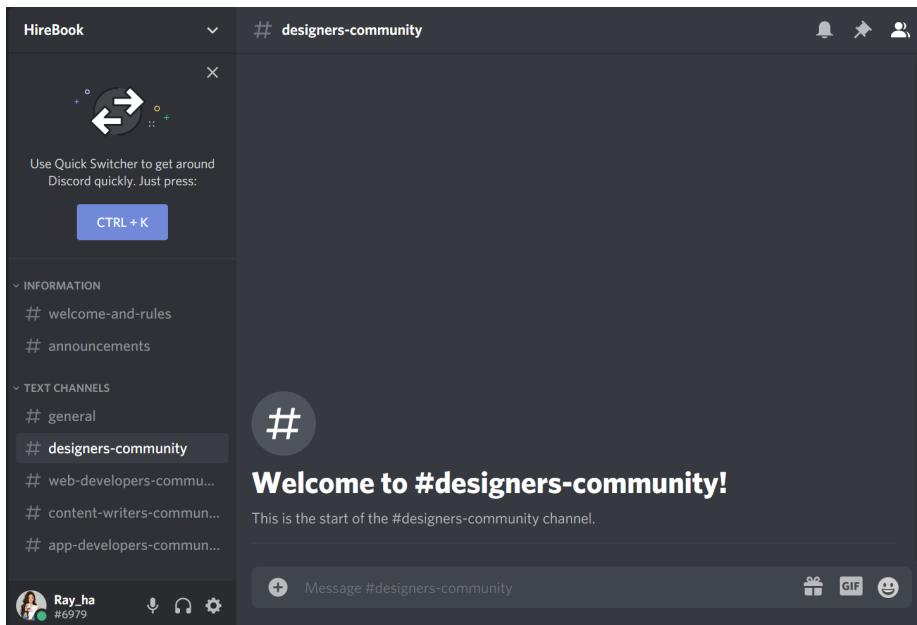

This code is unique to each user. When the user clicks on the "refer now" button they'll find the referral code, which when shared with their friends to enter while signing up, helps the user to earn a 2% extra income into their wallet amount.

### 2. Discord Community :

Next up we've added the link to join the discord. Therein

we've "**welcome-and-rules**" containing the welcome wishes also a bunch of rules about the functionality in the community and "**announcements**" notifying the freelancers about any new projects available according to their skill set. Next, we have the "**designers-community**" wherein all the designers right from recruits to professionals are present to help each other out with any sort of technical, coding, or any other issues regarding the work. Similarly, we have different communities for all the provided categories of freelancing works on our site.

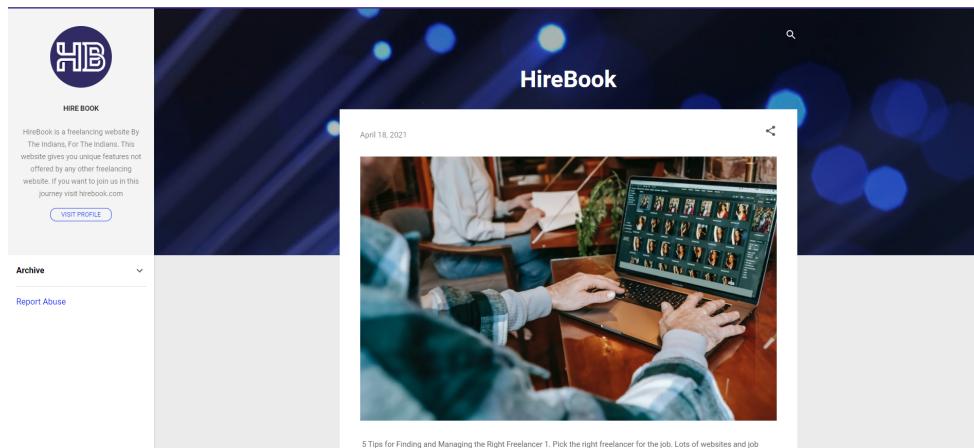

### 3. Blog :

The ultimate guide on how to use our site (both as a freelancer and as a client) in order to become a pro. Our blog includes tips for a newbie freelancer on how to make their gigs appear as one amongst the top-rated ones'. It also includes tips for the clients and guides them to be able to smoothly approve or deny any freelancer for their project and close the deal.

If the user found our blog through google or through any other search engine, they can try out our website as the blog

contains the link to it.

## Help Page:(Static page)

In the navbar, there is a help option, which redirects you to the help page, containing the guides regarding how to use our site, step by step.

A screenshot of the 'Help' page on the HireBook website. The top navigation bar includes 'Home', 'Freelancers', 'Projects', 'Contact', 'Post a Project', 'Create a gig', 'Help' (which is underlined), and 'Profile'. On the left, a sidebar lists 'Frequently asked questions' with links to 'How to Create a Gig?', 'How to Edit a Gig?', 'How to Post a Project?', 'How to Edit a Project?', 'How to Apply for Project?', 'How to Hire Freelancer?', 'How to Withdraw Money?', and 'How to Deposit Money?'. The main content area contains four video thumbnails: 'How to Sign UP/ Sign In?' (YouTube link), 'How to create a Profile?' (YouTube link), 'How to Post a Project?' (YouTube link), and 'How to create a Gig?' (YouTube link).

#### **4.4.1.2.FREELANCERS APPROACH:**

**(All the webpages used in this are dynamic)**

This includes

- 1. Creating a gig and waiting to get approved and hired.**
- 2. Selecting a project that they can work on and applying for it. (win-win if they get selected else there're many more options to choose from!!)**

##### **1.Creating a gig and waiting for someone to hire him/her:**

You can find "create a gig" option on the top of the navbar by clicking on it, you will be redirected to the page which as shown below :

## Create your Gig

Fill in the details and click submit. Once you submit, the details will be added in 2 places.

1. **User Dashboard**(Visible only to the respective user)
2. **Freelancers page**(visible to everyone)

**User dashboard:**

In the gigs tab, you can see all the gigs that you have posted. Here you can also edit and delete the gig you have posted. On clicking the dropdown on the top right corner both edit and delete options will be shown. Clicking on "**delete the gig**" the gig gets deleted permanently from the Hire Book's database.

The screenshot shows the HireBook platform interface. At the top, there's a dark header bar with the logo 'HB HIREBOOK' and navigation links: Home, Freelancers, Projects, Contact, Post a Project, Create a gig, and Help. Below the header is a sidebar on the left with a user profile picture 'R' and the name 'Reha Web developer'. The sidebar includes a 'DASHBOARD' section with links: Profile, In Touch, Active Projects, Posted Projects, Gigs (which is highlighted), Wallet, and Log Out. The main content area is titled 'Gigs' and displays a card for 'Gig-1'. The card features a small icon of a computer monitor, smartphone, and tablet. A dropdown menu from the top right of the card offers 'Edit Gig' and 'Delete Gig'. Below the icon, the text 'I can create a website in 2 days' is displayed. To the right of the icon, the price 'Rs. 2000' is shown in green. A note at the bottom says 'Heyaa this is me Here creating a gig'. On the far left of the main content area, there's a vertical sidebar with a light gray background.

## Freelancer's Page:

GET MATCHED IN MINUTES WITH PROVEN, REMOTE FREELANCERS.

### HIRE PEOPLE FROM DIFFERENT SECTORS

The card features a grid icon at the top. Below it, the category "Development and IT" is listed with a starting price of "Starting at : 1000/-". A statement "I can create a website in 2 days" is followed by the text "Heyaa this is me Here creating a gig". At the bottom is a profile picture of a person with the letter "R" and the name "Reha".

Along with all other gigs, your gig will be shown here with its starting price and gig title. This page is classified based on the categories available. In Design and creative, Designers gigs will be shown, in Development and IT, development-related gigs will be shown and by clicking on the image of each card, you will be redirected to complete details of that freelancer.

The page has a dark header with the logo "HIREBOOK" and navigation links: Home, Freelancers, Projects, Contact, Post a Project, Create a gig, Help, and Profile. The main content area shows a profile card for "Reha". The card includes a circular icon with icons, the name "Reha", the statement "I can create a website in 2 days", and the location "Uttar Pradesh, India". To the right, under "About Gig", is the text "Heyaa this is me Here creating a gig". It also lists "PORTFOLIO LINK" (https://www.instagram.com/), "GITHUB" (https://www.instagram.com/), and "LINK TO SAMPLES" (http://localhost:3003/GigEdit). Below this is a "AVERAGE RATINGS" section with a five-star rating. A "Hire Me" button is at the bottom of the card.

## **2>Selecting a project that they can work on and applying for it:**

In the projects section( which will be opened by clicking on Projects present on the navbar) you can find many projects of different categories.

The screenshot shows a project listing on the HIREBOOK platform. The project is titled "FULL STACK DEVELOPER" and is located in "HINDUSTAN (Vijayawada)". It specifies "Work from home".

Web developer work closely with project managers and designers to ensure that final products adhere to predetermined budgets, scope, and designs. Web developers sometimes need to be able to show employers or clients a prototype of a website to help them understand what the finished product will be.

**Skills Required**

Mern stack,Python(Tensorflow,keras),C,CPP

**Position Available:**

Enter your name here and click on **save changes** and once this is done, your project status will be updated to **Applied**.

The screenshot shows a project listing on the Hirebook platform. At the top, there's a navigation bar with the logo 'HB HIREBOOK For the Indians' and links for Home, Freelancers, Projects (which is underlined), Contact, Post a Project, Create a gig, Help, and Profile.

The main content area displays a job listing for a 'Web Developer'. It includes sections for 'Work Description' (describing web developers' roles), 'Skills Required' (Mern stack, Python, Tensorflow, keras, C, CPP), 'Position Available' (Web Developer), 'No. of Openings' (34), and a 'View more' button. A green 'Applied' button is visible at the bottom right of the listing.

Below the listing, there's a section titled 'CONTENT WRITER' with an upward arrow icon.

This project will be **added to your DashBoard** in the **intouch tab of both client and freelancer** which has the details of the freelancer, client, and project.

### Note:

Logged user name can be seen in the Top-left corner  
**Freelancer's Account:**

The screenshot shows the 'In Touch' section of a freelancer's account on the Hirebook platform. The sidebar on the left shows the user profile 'Reha' (Web developer) and navigation links for Dashboard, Profile, In Touch (which is selected and highlighted in blue), Active Projects, Posted Projects, Gigs, Wallet, and Log Out.

The main content area shows a project titled 'Full stack Developer'. It includes a 'Thumbnail' placeholder, a 'Freelancers Approach' section (describing web developers' roles), a 'Chat here' button, and detailed project information: Start Date (Wed Apr 28 2021 05:30:00 GMT+0530 (India Standard Time)), Duration (Fri May 28 2021 05:30:00 GMT+0530 (India Standard Time)), Stipend (\$10000), and Apply By (Fri May 28 2021 05:30:00 GMT+0530 (India Standard Time)).

## Clients Account:

The screenshot shows the HIREBOOK client account interface. On the left, there's a sidebar with a user profile for 'Munny' (Web developer), navigation links like Dashboard, Profile, In Touch (which is selected), Active Projects, Posted Projects, Gigs, Wallet, and Log Out. The main area has a header 'Freelancers Approach' and a 'Thumbnail' section for a 'Full stack Developer'. It details the project requirements: Start Date (Wed Apr 28 2021 05:30:00 GMT+0530 (India Standard Time)), Duration (Fri May 28 2021 05:30:00 GMT+0530 (India Standard Time)), Stipend (₹10000), and Apply By (Fri May 28 2021 05:30:00 GMT+0530 (India Standard Time)). It also lists the Freelancer Name (Reha) and Client Name (Munny). At the bottom are 'Confirm' and 'Cancel' buttons.

As we don't share the freelancer's personal details with clients we provided a chat option where they can chat with each other and then confirm the project.

## Chat app: (Completely Dynamic )

Here a client can create a room and add a freelancer and they can share samples here. Once both of them confirmed the project. The client can come and confirm the project in their intouch part.

The screenshot shows a dynamic chat application interface. On the left, a sidebar titled 'My Chats' lists conversations with various users: 'Content Writer' (1 image, Apr 30), 'Poster Creation' (yes i acn, Apr 28), 'posvedfagsv' (yeah sure, Apr 28), 'Android Project Manager' (Say hello!), 'POster hiring person' (Yeah sure, Apr 28), 'Project Designing' (Say hello!), and 'Poster Designing'. The main area shows a conversation with a 'Content Writer'. The client says, 'Hey I'M in need of this content in 10 days' and the freelancer replies, 'Ok fine and it costs 500'. Below the messages is a recruitment ad for 'Content Writer' with a laptop icon and text: 'WE'RE HIRING', 'Content Writer', 'CONTACT AT: WWW.MAKEMYWAY.IN', 'RATE - 40 PAISE/WORD', and 'TYPE - TECHNOLOGY TIPS'. On the right, there are two panels: 'Content Writer' (People: Bipul Gautam, koneru Rehasree) and 'Photos' (a small preview of the recruitment ad).

**Once they are done with the conversation they have 2 options**

- 1. Cancel the project**
- 2. Confirm the project**

### **1.Cancel the project:**

If the client is not willing to pay the amount demanded by the freelancer or if freelancer is not available during the period once they communicate they can delete the project from there.If any one of them clicked on cancel button. That project will be removed from the intouch section for both of them.

### **2.Confirm the project:**

The screenshot shows a payment interface on the HireBook website. At the top, the navigation bar includes links for Home, Freelancers, Projects, Contact (which is underlined), Post a Project, Create a gig, Help, and Profile. The main content area features a form with four input fields: Name, E-mail, Phone, and Amount. Below the form is a large blue "Pay Now" button. At the bottom of the page, a dark footer bar contains the copyright notice "© Copyright HireBook. All Rights Reserved" and "Designed by Team @HireBook", along with social media icons for Twitter, Facebook, Instagram, YouTube, and LinkedIn.

The client has to pay the money that he mentioned in the stipend section and click on pay now as soon as the deal gets closed. Then they will be redirected to the payment page.

Then it shows all the accounts that are connected to mobile numbers and clicking on pay now will make the payment successful.

Once the payment is done, the project will be moved to the active projects section in the respective profile tab of the freelancer and client.

**Intouch section** will be updated to conform to both freelancer and client

## Active Projects section:

### Freelancer's Account:

Freelancer will be have the Delivered Option

The screenshot shows the Hirebook platform interface for a freelancer named Reha. The top navigation bar includes links for Home, Freelancers, Projects, Contact, Post a Project, Create a gig, and Help. On the left sidebar, under the DASHBOARD section, the 'Active Projects' option is highlighted. The main content area displays a project titled 'Full stack Developer' from client 'Skillarena'. The project details include a start date of Wed Apr 28 2021 05:30:00 GMT+0530 (India Standard Time), a duration of 1 month, a stipend of ₹10000/month, and an apply by date of Fri May 28 2021 05:30:00 GMT+0530 (India Standard Time). The status of the project is 'Delivered', indicated by a blue button at the bottom.

### Clients Account :

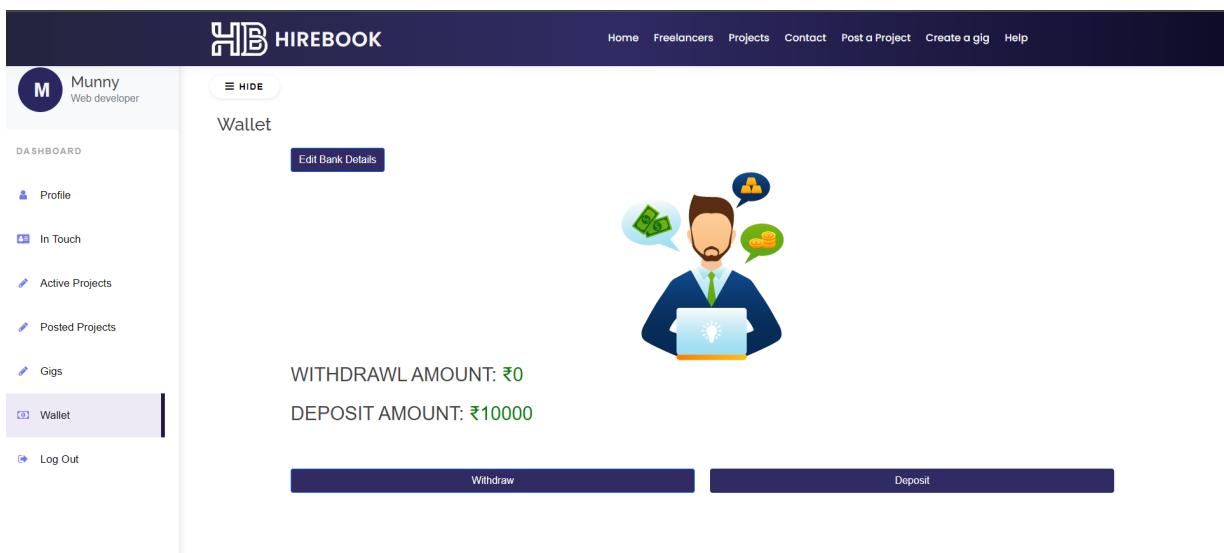

The client will have the Received option

The screenshot shows the Hirebook platform interface for a client named Munny. The top navigation bar is identical to the freelancer's account. On the left sidebar, under the DASHBOARD section, the 'Active Projects' option is highlighted. The main content area displays a project titled 'Project No-1' from freelancer 'Bipul'. The project details include a price of ₹ 500, and the status is 'Received', indicated by a blue button at the bottom. Below this, another project titled 'Full stack Developer' is listed, showing details for freelancer Reha, including a start date of Wed Apr 28 2021 05:30:00 GMT+0530 (India Standard Time), a duration of 1 month, a stipend of ₹10000/month, and an apply by date of Fri May 28 2021 05:30:00 GMT+0530 (India Standard Time).

Once the payment is done and the amount gets debited from the

clients account, we secure it until the project completion. If incase the project gets cancelled due to any valid reason they can contact us and only after proper validation the amount would be credited back to the client.

## **Wallet tab in Clients account:**

### **Case-1 :**

#### **Project completed successfully :**

1. Freelancer must click on delivered.
2. Similarly clients must click on received, then they will get a pop-up to rate the freelancer which will help us to sort their gigs later on.

A screenshot of a web application interface. At the top, there's a header with the text "Full stack developer". Below it, a modal window titled "Modal title" is open, containing a text input field with the placeholder "Rate your freelancer out of 5". There are two buttons at the bottom of the modal: "Close" and "Save changes". In the background, there's a dark overlay of the main page content. The main page shows project details: "START DATE" (Wed Apr 28 2021 05:30:00 GMT+0530 (India Standard Time)), "DURATION" (1 month), "END" (₹10000/month). It also displays "Freelancer Name: Reha" and "Client Name: Munny". A progress bar at the bottom indicates "Received" status.

Once the rating is given, the projects will be moved out of the active projects section of both the freelancer and the client.

A screenshot of a user's dashboard on the HIREBOOK platform. The top navigation bar includes links for Home, Freelancers, Projects, Contact, Post a Project, Create a gig, and Help. On the left, a sidebar shows the user's profile picture (a blue circle with a white 'R'), name (Reha), and title (Web developer). The sidebar menu includes DASHBOARD, Profile, In Touch, Active Projects (which is highlighted with a purple background), Posted Projects, Gigs, Wallet, and Log Out. The main content area is titled "Active Projects".

Wallet amount gets updated for both. As the project gets complete implying the client had no complaints the securely deposited amount will show a zero and that amount will be reflected in the freelancer's account.

### **4.4.1.3.CLIENTS APPROACH:**

**(All the pages used in this process are Dynamic webpages)**

- 1.Post a Project and wait for the freelancers to apply for it**
- 2. Go to the freelancer's page and hire a freelancer**

- 1.Post a Project and wait for the freelancers to apply for it**  
You will find a post project option in the navbar. Click on it.

The screenshot shows the 'Add Project Details' form on the Hirebook website. The form is divided into several sections: 'Company Name' and 'Position Available'; 'Start Date' and 'Apply by' (both with date pickers); 'Type of Project', 'Duration in months/weeks', and 'Stipend (₹/-)'; 'Work location' and 'Skills required\*'; 'no. of openings' and 'Website link'; 'Job Title' and 'Company Location'; and a large 'work Description' text area. At the bottom are 'Submit' and 'Cancel' buttons.

Fill in the details and click on submit. Now this project will be shown in 2 places

1. User's Dashboard(visible to only posted user)
2. Projects section(Visible to every logged in user)

### **User's Dashboard:**

Here you will have the list of all your posted projects and a dropdown with an edit and delete option.

Edit option lets you to edit the details of the project anytime and delete project will let you to delete the project anytime before the deadline.

Click on Hire me and enter the user name and click on save changes . It will be moved to intouch part for both freelancer and client .

The screenshot shows a user profile for 'Reha' on the left, which includes a circular profile picture, the name 'Reha', a statement 'I can create a website in 2 days', a location 'Uttar Pradesh, India', and a skills section listing 'UI / UX , Front End Development, HTML, CSS, JavaScript, React , Backend, C++, Jquery'. A modal window titled 'About Gig' is open on the right, containing the text 'Heyaa this is me Here creating a gig' and a 'PORTFOLIO LINK' field with the value 'https://www.instagram.com/'. Inside this modal, a sub-modal titled 'Chat Details' is displayed, showing a text input field with the value 'Munny' and two buttons: 'Close' and 'Save changes'. At the bottom of the main screen, there is a footer bar with the text '© Copyright HireBook. All Rights Reserved' and 'Designed by Team @HireBook'.

Once it is moved to intouch part

**Client account:**

The screenshot shows the client account interface on the left, featuring a sidebar with navigation links: 'DASHBOARD', 'Profile', 'In Touch' (which is highlighted), 'Active Projects', 'Posted Projects', 'Gigs', 'Wallet', and 'Log Out'. The main content area displays two gigs from 'Skillarena'. The first gig is for a 'Designer' at a price of ₹500, with the freelancer name 'Bipul' and the client name 'Munny (Chat username : Reha )'. A green 'Confirmed' button is visible. The second gig is for 'I can create a website in 2 days' at a price of ₹1000, with the freelancer name 'Reha' and the client name 'Munny (Chat username : Munny )'. There are 'Confirm' and 'Cancel' buttons at the bottom of this card.

## Freelancer Account:

The screenshot shows the Hirebook platform interface. On the left, a sidebar menu includes 'DASHBOARD', 'Profile', 'In Touch' (which is selected), 'Active Projects', 'Posted Projects', 'Gigs', 'Wallet', and 'Log Out'. The main area displays a 'Clients Approach' section with a card for 'Reha' (Web developer). The card details a project from 'Munny' (Client Name) with a price of ₹10000. It shows the project was posted on Wed Apr 28 2021 05:30:00 GMT+0530 (India Standard Time) and accepted on Fri May 28 2021 05:30:00 GMT+0530 (India Standard Time). The card also lists 'Freelancer Name: Reha' and 'Client Name: Munny'. A green 'Confirmed' button is at the bottom. Below this, a 'Thumbnail' section shows a card for 'Skillarena' with the text 'I can create a website in 2 days', a description 'Heyaa this is me Here creating a gig', a 'Chat here' button, and a price of ₹1000. It also lists 'Freelancer Name: Reha' and 'Client Name: Munny (Chat username : Munny )'. A 'Cancel' button is at the bottom of this card.

Here again, the process is the same as explained above in the freelancer's approach ( refer to page no. 18). They'll have a conversation and once both agree to it, they can confirm the same. Else either of them can cancel it and consequently, the project card will be removed from the intouch section. If they've decided to close the deal and confirm the same, the project card moves to the active projects section and the wallet will be updated and the drill is the same as before.
